AI Executive Summary

Key Progress This Quarter

GBV Prevention and Population Data projects significantly exceeded targets. Participant reach increased 18% with strong female engagement at 63.5%.

Indicators Needing Management Attention

8 indicators off track, primarily in Humanitarian Response. 12 indicators under watch status require monitoring to prevent slippage.

IPs Requiring Follow-up

WOREC Nepal and FPAN show data quality concerns. SAATHI has indicator reporting delays. Immediate technical support recommended.

Data Quality Issues Before Reporting

127 evidence items missing. 47 duplicate participant records need resolution. Age disaggregation incomplete for 156 records.

Recommended Management Actions

- Conduct data quality workshop with flagged IPs
- Accelerate Humanitarian Response activities
